

## **WATERLOO SECONDARY SCHOOL ASTRONOMY AND METEOROLOGICAL CLUB**

This year our club took part, our third year, in **NASA's GROWING BEYOND EARTH PROJECT** in partnership with **FAIRCHILD TROPICAL BOTANICAL GARDEN** , of Florida .

Our project was investigating effects of Bacteria Inoculated soil in growing Radishes and Pakchoi as companion crops in same containers.

Yesterday we presented our findings to NASA scientists and scientists from major universities around the world. Our results were well received. Our students who actively participated were Denver Dookhran, Shriya Maharaj, Kaylei poulido, Travis Mahase , Samantha Nathan ,Javaungh Bigford, Josh Beepat and Josiah Robertson.

# GROWING BEYOND EARTH™

A PARTNERSHIP BETWEEN FAIRCHILD TROPICAL BOTANIC GARDEN & NASA
